Payvision Partners with Plug'n Pay

Top International Payment Solutions Provider Joins Roster of Processing Platforms

Amsterdam, Netherlands – July 21, 2008. Payvision, one of the leading international payment solutions providers for the card-not-present marketplace, announced today it has brokered a strategic alliance with Plug'n Pay, a leading provider of payment and digital fulfillment solutions for Internet merchants. As a result of this new partnership, Payvision will now provide Plug'n Pay with multi-currency and domestic global acquiring capabilities through its multi-tiered platform.

“We are delighted to team up with a company of Plug'n Pay's stature to offer flexible, stream-lined solutions that not only simplify and enhance the customer experience but also offer merchants powerful tools to optimize operations and efficiently manage international transactions,” says Rudolf Booker, CEO of Payvision.

Payvision offers card-not-present processing services via its secure, PCI-compliant platform for all major credit cards including Visa, MasterCard, American Express, Discover Card, Diner's Club, Carte Blanche, JCB and Carte Bleue.

"Plug'n Pay is happy to add Payvision to our extensive list of integrated processing platforms,” says **Randy Ridings, Vice President, Sales for Plug'n Pay**. “Their multi-currency and international acquiring capabilities will be a welcome addition to the services we can provide to our customers throughout the world.”

feature-rich, stream-lined solutions that can be deployed worldwide. At present, Payvision provides its domestic acquiring expertise to retail communities in over 40 countries and 150 currencies. To learn more about Payvision, please visit www.payvision.com.

About Plug'n Pay

Plug'n Pay Technologies, Inc., founded in 1996, is a leading provider of payment and digital fulfillment solutions for Internet merchants. Plug'n Pay's advanced eCommerce product set allow merchants to accept and manage both credit card and electronic check payments in a secure environment, to offer digital goods for real-time fulfillment and to manage and maintain online membership and recurring billing services. Plug'n Pay securely provides connectivity to all of the nation's largest credit card processors, and many international processors, offering merchants the option to work with any merchant account provider they choose. Plug'n Pay's services can be located through its web site (www.plugnpay.com) or through its reseller partners.
