Exostar enables secure information sharing, collaboration and business process integration throughout the extended value chain through a Software as a Service delivery model

CertiPath: At a Glance

ARINC

EXOSTARSM

SITA

- **A Joint Venture organization that will develop and operate a Commercial PKI Bridge Service**
 - Founding Partners: ARINC, SITA & EXOSTAR
 - Mission: Facilitate an enterprise application accepting digital certificates issued by a potentially different enterprise
- **Cooperation and Competition**
 - Jointly Own and Operate the bridge, providing increased stability
 - Provide the industry with three Competing vendors that supply similar Digital Credentials (PKI Certificates)
- **The first ever commercially managed "PKI-based bridging mechanism" for the Aerospace and Defense (A&D) industry**
- **Reduces the cost of establishing and maintaining secure relationships between globally-dispersed customers and suppliers**
